Introduction and Purpose of This Guide

Welcome to Edgenuity's Quickstart Guide to the Student Information System (SIS). The SIS is referred to as the Edgenuity SIS and houses all of the online tools you will need to monitor, track, and update your progress in the online classroom.

We are so excited that you are joining us on an adventure into online learning! Edgenuity has created an inviting, interactive learning environment to help guide you towards your academic success.

Your courses contain standards-based instruction with lessons from expert, on-screen teachers and multimedia tools and resources. You will be presented with real-world applications, allowing you to build your content knowledge and essential skills, while also inspiring a deeper understanding.

Your Edgenuity account not only provides access to your coursework, it is also where you can find view your progress report, monitor your daily assignment calendar, and access additional features designed to keep you informed and in control of your own education.

This guide is intended to help you become comfortable navigating your courses and walk you through everything you need to know to be successful with your Edgenuity program, in your own time and at your own pace. Our best to you as you start this journey in your online course!

Grade Weights

To be successful in your online courses, it’s important to know how your work will be graded. Your overall grade is determined by calculating the weighted averages of your activities. Your teacher will be able to provide you with the grade weight percentages that have been assigned to your course, and you can keep track of those activity weights here.

My Dashboard Tools and Features

The main page in the Edgenuity SIS is known as the Dashboard. The Dashboard provides access to your courses, progress and grade reports, and the messaging center. Think of the Dashboard as the central hub that contains all of your student information and tools to support you while enrolled in the program. Let's review some of the key tools and features you will use in the SIS.

The Main Dashboard features the following tools on the front page of the SIS as soon as you login:

- Academic Snapshot
- Upcoming Events
- Activity
- Messages
- Course Requirements
- Admission Status
The Academic Snapshot area lists the course(s) in which you are enrolled. Grade and progress information are included. Clicking on any one of the course names will log you into your online course, where you will complete your course assignments.

The Upcoming Events area allows your teachers to set reminders of important events or deadlines for assignments. You may also use the calendar to set your own reminders.

When you work in your course(s), the time you spend is logged. The Activity area shows the course names, dates, and number of minutes spent in each course while completing assignments.

Your Message Center is an inbox for important communications from your teacher(s). Be sure to check this inbox often.
The Sidebar contains the following tools:

**Dashboard:** Main page in the SIS; provides a quick snapshot of your progress and grades

**Messages:** View e-mail messages from your teachers and reply and create new messages

**Mentor Information:** View your assigned mentor’s information

**Course Information:** View your courses, course description, credit amount, and teacher contact information

**Academic Snapshot:** Provides an overall progress bar for all courses and specific progress bars for each class you are enrolled in

**Suggested Pacing:** A progress bar and weekly assignment goals to keep you on track with your targeted completion date

**Student Activity:** A tally of the total number of assignments you have completed each day in your course(s)

**Course Plan:** A plan that puts you on track for graduation

**View Transcript:** A record of your current grades and credit(s) earned

**School Calendar:** A calendar of current appointments or conferences

**External Links:** Links to popular and helpful resources when navigating your online classroom

---

**Communicating With Your Teachers**

Communicating is one of the most important contributions to your success in the online classroom. Be sure to reach out to your instructor(s) at any time if you need help. To send a message, click on the Messages link from the left-hand menu when in the Dashboard:

Once inside the Message Center, you will see a log of recent messages. You can reply to or delete messages. You also have the ability to send e-mail messages using a template.

Click on “Compose” to begin a message.

---

We are excited to have you as part of the Edgenuity family. We hope you will find the Edgenuity Student Information System a valuable tool for monitoring and maintaining your progress in the online classroom. Do not hesitate to reach out to your instructor or coach/mentors should you need help navigating your course(s).

Courseware Tools

Your online courses include a number of tools available to support your learning. You can take virtual, electronic notes (eNotes), use the online glossary to view new vocabulary, and even read transcripts of the video instruction to ensure you don’t miss key information.

Many courses also have subject-specific tools available like calculators, formula sheets, and the periodic table. If your teacher enables additional tools for you, you could have access to translate the text you see on screen into one of 17 different languages, or even highlight text to have it read aloud to you. Let’s take a look at some examples.

LESSON SUPPORT TOOLS

<td>Every lesson in your course gives you access to electronic notes (eNotes), an online glossary, video instruction transcripts, and a highlighter tool.</td>
</tr>
</tbody>
</table>

1. Open your tools by clicking the orange plus sign in the top right corner under your name.

![Image of lesson support tools](image)

i Edgenuity will automatically detect your screen size and will adjust to give you the best experience. On smaller screens, tablets, or mobile devices, you may find tabs across the top instead of the plus sign.
